WONDERS OF THE WORLD

How They are Displayed at the
Columbian Exposition.

ONE DAY AT JACKSON PARK.

A Preliminary Survey Which Gives the
Reader an Idea of the Scope of
the Fair and How
to See It.

Now that we are in Chicago and
about to visit the World's fair grounds,
the question arises, How shall we go?
There are a dozen ways of going, but we
want to take the quickest way. We are
near the Illinois Central station, so let's
go over and catch a train. They run

at day methods over those of times past.

LA RAVIDA.

Now comes the Mines and Mining
building. Here are shown ancient and
modern methods of mining, and here
are gathered the greatest imaginable vari-
ety and wealth of exhibits from all the
great mining states and territories, from
Alaska, Australia, Africa and all over
the earth. This is one of the displays
that it takes time to see.

The Electrical Exhibit.

And now the electrical exhibit. What
a contrast with that of the centennial!
After this a short tour of the Ad-
ministration building, and then for Ma-
chinery hall. We cannot not could
not make any sort of a complete inspec-
tion of this building if we put in every
day here during the fair, but we will
take a layman's look about. From here
we pass to the stock pavilion. In this
vicinity are gathered oil and lumber ex-
hibits, etc.

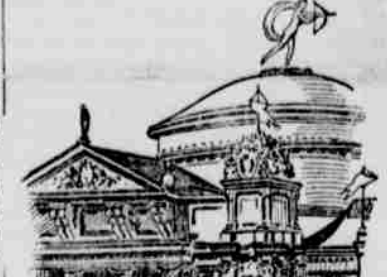

Passing toward the south end of the
grounds, we look at the displays of agri-
cultural implements, windmills, etc.,
and this brings us to the dairy barns
and on to the great stock exhibit. When
we have gone through that, we return
by way of the power house to the south-
east corner of the grounds. Here are
the forestry, dairy and leather exhibits
in succession.

Now we come to the ice railway, and
next to the Chinese tea-house, passing by
the French elder press, the fire and guard
station, and two or three minor exhibits,
and here we are at the Austrian village.
I am more interested, however, in the
Dalmatian village just beyond. These
are some of the colored ladies who have
disagreements with our French
friends. Along here are the Roman
house, the Hungarian orphanage, and
other things, and these passed we arrive
at the nursery exhibit and at the end of
Midway plaisance.

Poor Lo and His Cousin.

Here on the way back we find Poor Lo
and his cousin from India hobnobbing
in adjoining villages, next to
the electrical exhibit.

The Electrical Exhibit.

DIANA OF THE AGRICULTURAL BUILDING.

The captive balloon and in close prox-
imity to the Chinese village. The Celestials
have a theater here, which we must
"take in" some time. This is the Morocco

of Kobalatsky, member of the Russian
imperial commission, will contribute a
paper on the great transiberian rail-
way. Dr. Panagiotis G. Flambolis,
resident priest of the Greek church, will
present the faith and distinguishing
characteristics of the Greek church in
the world's parliament of religions.

A MODEL KITCHEN.

The Illinois woman's exposition board
will conduct a model kitchen in the
Women's building. Mrs. Richard J.
Ogleby has planned the work to illus-
trate the value of corn, one of the chief
products of Illinois. Lessons in the
scientific and hygienic preparation of
food will be given such as involves
no loss of nutriment or needless expendi-
ture of personal energy or fuel. All the
modern contrivances for saving labor
and annoyance will, as far as possible,
be in actual use. It is believed a better
knowledge of the nutritive properties of
the cereal and the many excellent dishes
which may be prepared from it will
prove of great advantage to visitors.

RARE CHINA.

One of the rarest exhibits at the ex-
position will be a selection of Chinese
china. A specialty is the chalcidony
decoration, which reproduces the hue
of the agate. Imitation turquoise are
studied on some of the vases with fine
effect.

GRACE DARLING'S BOAT.

The little boat in which Grace Darling
went to the rescue of the passenger
steamer Forfarshire on the rocks of
Farne Island Sept. 6, 1838, will be
one of the many interesting exhibits in
the Transportation building at the fair.

A Man's Work.

Away up on the north fork of the
Kentucky River the Widow Wilson
kept a half-way house, famous in that
section for its excellent fare, and I
happened to be in that neighborhood
on one occasion I made an extra effort
to get there one day over Sunday.
I found it an excellent place and Sunday
afternoon as I sat in the shade of the
porch the widow found me.

"Don't you get very lonesome here
by yourself?" I asked, after a few start-
ling remarks.

"Yes, sometimes," she answered;
"but takin' it up one side an' down
other I reckon I'm about ez well off
ez I had a man around."

"But you ought to get married," I
argued. "You are still hale and hearty,
and a husband would be a good deal of
comfort to you."

"He mought an' then again he
moughtn't," she said, shaking her
head. "I've tried two, an' neither one
suited."

"What was wrong with them?"
"Well, Jinkins, he was the best one,"
she said in a reminiscent tone. "He
was a ornery bound that used to git
drunk an' come home an' thrash me all
over the place. Ef he hadn't been a
drunkin' man I could 'a' stood the
thrashin', but I didn't like the idea uv
both. After he died I married Wilson,
an' he was a lazy, ornery thing that
used to git drunk an' come home, an' I
used to thrash him all over the place."

She laughed softly at the memory of
it.

"That was some better than the
first," I said, laughing with her.

"No, it wuzn't," she promptly re-
plied.

"No? Why?" I asked in surprise.

"Well, I'd kinder got used to Jin-
kins' ways, an' when Wilson come, I
never liked the idea uv doin' a man's
work about the house."

It was a new phase of "a man's work
about the house," and for some time I
ruminated upon it.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled
with Neuralgia and Rheumatism. His Stomach
was disordered, his liver affected to an
alarming degree, appetite fell away, and he
was terribly reduced in flesh and strength.
Three bottles of Electric Bitters cured him.

Three bottles of Electric Bitters cured him.
Using three bottles of Electric Bitters and seven
boxes of Buckner's Kidney and Bladder
and he was cured. John Speaker, Catawissa, O.,
had five large liver stones on his leg doctors
an' he was incurable. One bottle of Electric
Bitters cured him. Sold by Williams, Bell & Co.,
Hartford; R. T. Taylor, Jr., Beaver Dam.

Mrs. Cleveland and the Children.

The line of charity in which Mrs.
Cleveland interests herself is a peculiarly
sweet and interesting one, for it is
devoted to brightening the lives of little
children. Before little Ruth came into
her life Mrs. Cleveland was interested in
the scheme of founding free kinder-
gartens for poor and neglected child-
ren, and she is now Vice-president of the
kindergarten Society of which
Richard Watson Gilder is President,
and which has established nearly a
dozen free baby schools in the slums of
the city. And next to her interest in
children, Mrs. Cleveland's solicitude
for poor mothers manifests itself. On
certain afternoons of the week these
poverty-stricken mothers gather in lit-
tle groups in different parts of the city
and talk about helpful household topics
over a cup of tea. Women especially
trained for the work provide over these
meetings and lead the conversation in
the right channels. "Teach them how
to live," said Mrs. Cleveland while
giving directions at one of these "moth-
ers' meetings." "Tell them that there
is a right way and a wrong way of doing
things, and make them realize that the
children which are sent them
straight from the hand of God must be
trained to go back to Him."

Judge Fleming, of Mahlenberg County,
says:

Greenville, Ky., April 25th, 1893.
Carlsbad Medicine Co., Evansville, Ind.
Deaths.—Not long since I had occasion to use
your German Liver Powder for torpid liver and
indigestion. It acts like a charm and sets a
man's liver up all right. My wife also used it
for sick and nervous headache, and it gave her
great relief. I can very cheerfully recommend
the German Liver Powder to all persons who
are troubled with an inactive liver or any bilious
affection. D. J. FLEMING, J. M. C. C.

MIDNIGHT IN TOWN.

A Graphic Life Picture Drawn by a
Master Hand—A Man Among
Men, a Fool Among Fools.

A DRAMA IN FIVE ACTS.

(Palmyra.)

Are there in this assemblage those
who know by experience the tragedies
of midnight in town? I am not here to
thrust you back with one hard word. I
could give you the history, in a minute,
of one of the best friends I ever had.
Outside of my own family, I never had
a better friend. He welcomed me to my
home at the West. He was of splen-
did personal appearance, and he had an
ardor of soul and warmth of affection
that made me love him like a brother.
I saw men coming out of the saloons
and gambling halls, and they surround-
ed my friend, and they took him at the
weak point, his social nature, and I saw
him going down, and I had a fair talk
with him—I never saw a man you
could not talk with on the subject of
his habits, if you talk with him in the
right way. I said to him: "Why don't
you give up your bad habits and be-
come a Christian?" I remember now
just how he looked, leaning over his
counter, as he replied: "I wish I
could. Oh! sir, I should like to be a
Christian, but I have gone so far astray
I can't get back."

So the time went on. After awhile
the day of sickness came. I was sum-
moned to his sickbed. I hastened. It
took me but a few minutes to get
there. I was surprised as I went in. I
saw him in his ordinary clothes, fully
dressed, lying on the top of the bed. I
gave him my hand, and he seized it
convulsively, and said: "Oh! how glad
I am to see you. Sit down there." I
sat down, and he said: "Mr. Talmage,
just where you sit now, my mother sat
last night. She had been dead twenty
years. Now, I don't want you to think
I am out of my mind, or that I am
superstitious; but, sir, she sat there last
night as certainly as you sit there now
—the same cap, and apron and specta-
cles. It was my old mother—she sat
there." Then he turned to his wife and
said: "I wish you would take these
strings off my bed; somebody is wrap-
ping strings around me all the time. I
wish you would stop that annoyance."

She said: "There is nothing here."

Then I saw it was delirium. He said:
"Just where you sit now my mother
sat, and she said: 'I wish you would
take these strings off my bed; some-
body is wrapping strings around me all
the time. I wish you would stop that
annoyance.'"

Then I saw it was delirium. He said:
"Just where you sit now my mother
sat, and she said: 'I wish you would
take these strings off my bed; some-
body is wrapping strings around me all
the time. I wish you would stop that
annoyance.'"

Then I saw it was delirium. He said:

body is wrapping strings around me all
the time. I wish you would stop that
annoyance.'"

what a blasting heath of three graves.
Plenty of weeds, but no flowers. Ring
the bell and let the curtain drop.

Act the fifth. A destroyed soul's
eternity. No light. No music. No hope.
Anguish coiling its serpents around the
heart. Blackness of darkness forever.
But I cannot look any longer. Wo!
wo! I close my eyes to this last act of
the tragedy. Quick! quick! Ring the
bell and let the curtain drop. "Rejoice,
O young man, in thy youth, and let thy
heart rejoice in the days of thy youth;
but know that for all these things
God will bring you into judgment."

"There is a way that seemeth right to
a man, but the end thereof is death."

THE SOUL OF MAN.

Say, in a bit of man's estate,
A light just glimmers and then is gone,
Nature is seen to hesitate,
Put forth and then retract her pawn;

Say, in the alcove of an eye,
Haughty is mixed with poor and low;
Truth reveals its secret and then is hid,
But Error laughs to see her so;

Say, all that strength faileth in its trust;
Say, all that wit crept but a span;
Say, 'tis a drop spilled in the dust,
And then say how often then say man.

Draw Read Goudie, in Lippincott's.

FOR YOUR SCRAP BOOK.

Samuel Hopkins in 1790, took out
the first patent. It secured him the
right to make potash.

In 1793 Noah Webster printed the
first spelling-book ever manufactured
in this country.

There are in this country 430 colleges
and universities, with 8,473 professors
and teachers.

The first white child born in the Col-
onies was Virginia Dare, at Roanoke
Island, August 18, 1587.

The Island of Attu, the most western
point of our territory, is 2,903 miles
west of San Francisco.

The Life Saving Service in 1890 cost
\$1,000,000 and saved 800 lives and \$5-
000,000 of property.

In 1697 the New York council ordered
the first street lighting.

New York was the first city incorpo-
rated in the limits of the United States.
Its charter was dated 1664.

The United States have 18,812,766
persons of school age, of whom 13,010-
130 are enrolled in school.

The first bank established in the
United States was incorporated at
Philadelphia, December 31, 1781.

In 1790 the first clocks were intro-
duced to be placed in churches, the hor-
glass having been previously used.

The total recorded immigration to
this country is 16,094,993, almost as
many as the entire population of Spain.

In Albany, N. Y., about 1814, the
first carriages were made, all previously
used having been imported from Eng-
land.

Mount Vernon took its name from
Admiral Vernon, of the English navy,
with whom Lawrence Washington
served.

The first discovery of land in the
limits of the United States was on
April 2, 1513, by De Leon, and the
land was Florida.

A silver United States dollar is one
inch and a half in diameter; a half-
dollar one inch; a quarter three-
quarters of an inch.

There are on our coasts and rivers
1021 light houses and beacons, 36 light-
ships, 240 fog signals, 1,300 river lights
and nearly 5,000 buoys.

The motto E Pluribus Unum was
taken from the title page of the Gen-
tleman's Magazine, at the time of the revo-
lution having a large circulation in
the colonies.

In 1794 the first turnpike road was
made, 62 miles long, between Lanca-
ster and Philadelphia, so called because
it was required to be so hard that a
pike could not be driven through it.

This country is one-third the size of
the British Empire, nearly one-half as
large as the Russian Empire, a fourth
smaller than the Chinese Empire, a
fourth larger than France and all its
colonies, twice as large as the Turkish
Empire, and nearly as large as Brazil.

Now Try This.

It will cost you nothing and will surely do
you good, if you have a Cough, Cold, or any
trouble with Throat, Chest or Lungs. Try King's
New Discovery for Consumption, Coughs, and
Colds. It is guaranteed to give relief, or money
will be paid back. Sufferers from La Grippe found
just the thing and under its use had a speedy
and perfect recovery. Try a sample bottle at
our expense and learn for yourself just how
good a thing it is. Trial bottle free at Williams,
Bell & Co., Hartford; R. T. Taylor, Jr., Beaver
Dam. Large size 50c and \$1.00.

For years the editor of the Burling-
ton (Vt.) Post has been sub-
ject to cramp colic or fits of indiges-
tion, which prostrated him for several
hours and unfitted him for business for
two or three days. For the past year
he has been using Chamberlain's Colic,
Cholera and Diarrhoea Remedy when-
ever occasion required, and it has in-
variably given him prompt relief. 25
and 50 cent bottles for sale by R. T.
Wayne Griffin & Bro.

General Debility.

General debility is a complaint quite pre-
valent and one of the most difficult for which to
find a cure. There is no medicine known that
is so successful in treating general debility as
German Liver Syrup. Acting directly on the
digestive organs, it promotes good digestion,
imparts a relish for food, and insuring the
nutrition necessary to build up and strengthen the
entire system, removing all impurities from the
blood, and restoring perfect circulation, the
weak and weary sufferer is rapidly awakened to a
sense of cure, and is able to follow his
usual avocations. Sample free.

Ripans Tablets cure Jaundice.

The man who puts in his time saving
the hired hands, is the same fellow who
will turn up next year as a candidate for
the fattest office in sight. (Greenville
Banner.)
